Protective Systems

- Sentry-Rail™, Trak-Sentry™, Z-Guard
- Column, Pipe and Post Protectors
- Bollards
- Bumpers
- FLEX-BACK™ Door Panel
- Dock Impact Barrier™ and Visual Barriers
PROTECTIVE SYSTEMS

Sentry-Rail™ Guard Railing
High visibility and structural integrity provide needed protection throughout your facility.
- Standard posts available in double rail (44”h) and single rail (18”h); custom posts upon request
- Optional removable/swing gate available
- Powder coated safety yellow

Trak-Sentry™
Trak-Sentry wraps securely around the door’s track without interfering with normal door operation.
- 4’ standard height for maximized protection
- Powder coated safety yellow for high visibility
- Heavy-duty steel construction
- Floor mounting hardware included
- Available in Heavy-Duty steel for extra strength

Z-Guard
This compact system takes up less valuable floor space by eliminating the base plate.
- A cost-effective way to protect door tracks
- Keeps floor space unobstructed around the door opening
- Does not interfere with security wiring around the door opening
- Powder coated safety yellow for high visibility

Column Protectors
Protects against structural damage to I-Beams from forklifts and other equipment by absorbing impact.

Steel Column Protectors
- Powder coated safety yellow for durability and high visibility
- Heavy-duty steel construction
- Complete with concrete and assembly hardware

Poly-Barrel Column Protectors
- High-density polyethylene protectors are UV resistant and rust proof
- Impact tested to handle a 7,000 lb. forklift at 6 mph.
- Deflect impact and guard against damage caused by forklifts, hand trucks, drum dollies and personnel traffic
- Quick and easy installation; no tools required
PROTECTIVE SYSTEMS

Drain Pipe Protectors
Drain Pipe Protectors are a cost-effective way to help eliminate damage to unprotected drain pipes.
- Absorbs and dissipates energy from a direct impact
- High visibility safety yellow powder coating
- Available in wall-mount or I-Beam mount; 42” high

Rack Post Protectors
Rack post protectors are a cost-effective solution to protecting your racking systems from collapse during impact.
- Helps reduce potential injury from rack damage
- Constructed of rugged steel plates
- High visibility safety yellow powder coating
- Available in various heights (12”, 18”, 24”) and lengths
- Single or double widths available

Fork Sentry
A heavy duty barrier to protect machinery and personnel from lift truck traffic. Rugged construction barrier provides safety to company assets.
- Heavy duty, gusseted, 8” high construction
- High visibility safety yellow powder coating
- Provides safety to machinery, personnel and company assets
- Protects from lift truck and fork damage
- 18” and 60” length sizes standard
- Other sizes available upon request

Bollards
Enhance your property’s appearance without costly painting or clean-up!

Pipe Bollards
- Protection for loading docks, door jambs and other in-plant areas susceptible to a moving vehicle collision
- Available in heavy-duty 6” or 4” diameter pipe
- Powder coated safety yellow for high visibility
- Optional cap available

Bollard Covers
- Fit securely over existing bollard posts
- Constructed of 1/8” thick, high density, UV stabilized polyethylene for durability and long life
- Safety yellow; enhances visibility with red or blue reflective stripes
- Easy installation
- Various sizes available
PROTECTIVE SYSTEMS

Bumpers
Provide maximum protection against vehicle damage to the building, dock leveler, restraint, seal or shelter. A wide variety of choices in vertical and horizontal bumpers.

Molded Bumpers
- Perfect for low traffic dock use
- Unique design and construction achieves high impact resistance and long life
- Molded in one piece; compact size
- Weather resistant; maintenance-free

Laminated Bumpers
- Absorb over 80% of truck impact and help protect dock and building
- Thick reinforced rubber pads laminated between heavy steel angles for stability and strength
- Help eliminate costly repairs from severe impact to docks

Steel Bumpers
- Rubber pads with reinforced steel-face absorb and deflect impact for maximum dock and building protection
- Recommended for heavy-duty and air-ride trailer applications
- Cost effective due to maximum life expectancy
- Impervious to weather damage; maintenance free

FLEX-BACK™ Door Panel
The FLEX-BACK Panel is the answer to common lower door panel damage, one of the most frequent and costly maintenance problems in today’s busy warehouse.
- High impact polymer skin and flexible tube frame allows the panel to flex upon impact and return to its normal operating position
- Provides an exceptional thermal seal
- Installs easily using standard door hardware
- Heavy duty, easy grip handle comes standard
- Thick, 1½” construction fits most common doors
- Available in most popular sectional door sizes: 8’2”, 9’2” and 10’2”
- Custom sizes available upon request

Section Saver™
An inexpensive way to prevent overhead doors from drifting down into the door opening and into the way of forklift masts.
- Ideal for manual high lift and vertical lift sectional doors
- Extra-heavy steel construction
- Easy-to-install; hardware included
Dock Impact Barrier™
The APS Resource Dock Impact Barrier is a manually operated gate barrier. When dock use is required, the Dock Impact Barrier is opened by releasing the foot latch and lifting the gate into an upright position with very little effort. Available in 8’, 9’ and 10’ sizes.
- Reduces the occurrence of accidents due to fork lift, pallet jacks or pedestrians falling off the dock when the door is open
- Reduces the occurrence of damage to equipment, load, door panels and door track when the door is closed
- 9/16” - heavy-duty steel aircraft cable encased in flexible fiberglass rail withstands the impact of a 10,000 lb. fork truck moving at 4 mph.
- High visibility nylon netting and yellow 42” upper fiberglass rail provide additional personnel safety and meet the International Building Code
- Simple installation, minimal maintenance and easy operation

Visual Barriers
Belted Visual Barrier
- 14ft. yellow/black 3” strip for high visibility
- Trak Sentry with visual barrier provide 48” high door track protection (optional)

Steel Visual Barrier
- 48” tall x 12’ wide, high visibility yellow/black steel barrier
- Lightweight design; additional double-wide (22’) wheeled cart design available
- Highly visible strobe light for added safety (optional)

Canvas Visual Barrier
- 4’ tall x 10’ wide; high visibility large warning signs
- Light fabric and plastic design easily move and fold into a compact space

Security Gates
APS Resource provides a variety of security gates to fit all your needs.
- Variety of widths and heights available
- Single-slide or bi-part styles
- Extra-heavy steel construction
APS RESOURCE’S COMPREHENSIVE LINEUP INCLUDES:

airDefense® Retro Fit Kits
APS&GO - LED™ Safety Light Systems
APS 2000® Rotating Hook Vehicle Restraint
ATC - Air Conversion Kit™
Bollard Covers
Bumper Brackets & Buildouts
Column Protectors
Curb Angle Sets
Dock Bumpers
Dock Defender™ Bumper
Dock Guide Lights
Dock Impact Barrier™
Dock Impact Barrier - LC™
Dock Light / Fan Combinations
Dock Seal Recovers
Dock Seal Wear Pleats
Dock Strobe™
Dock Stufr®
Dock Visual Barrier
DOK-LOK® Replacement Parts
Door Edge Sealr™
Door Section Saver
Door Sprag™ Seals
Drain Pipe Protectors
ENERGY GUARD® Retrofit Kits
E-Saver 30™ LED Lamp
E-Saver 38™ LED Lamp
Extra Length Dock Bumpers
FLEX-BACK™ Door Panel
Fork Sentry
FT Ultra LED™ Dock Light
G-Flex Dock Light™
G-Flex LED Dock Light™
High Impact LED™ Dock Light
High Pressure Sodium Dock Lights
Hold-Safe™ Trailer Stabilizer

HTC - Hydraulic Conversion Kit™
