The Kelley HINGE GUARD™ Dock Shelter System addresses a once overlooked source of energy loss. By blocking trailer hinge gaps like a seal, and providing unrestricted trailer access like a shelter, HINGE GUARD secures superior energy-efficiency for your loading dock.

**Available fabrics**

| 16 OZ. CSM | Nylon woven base with a CSM coating on both sides. |
| 40 OZ. CSM | Woven polyester base fabric with a CSM coating on both sides. |
| 22 OZ. VINYL | Woven polyester-based fabric with a vinyl coating on both sides. |
| 40 OZ. SUPER FABRIC | Heavy-duty polymer-based fabric with a polymer blend coating on both sides resulting in the highest puncture and tear resistance of any fabric in the industry. |

**DESIGN HIGHLIGHTS:**

This extreme sealing dock shelter add-on is designed to effectively seal the perimeter and stop air movement between the exposed trailer hinge gaps along the sides of 102” (8’-6”) wide trailers with swing-out doors. HINGE GUARD offers ease of functionality as it is automatically activated by the backing trailer by grasping the sides of the trailer and covering the hinge gaps to create a consistent seal top to bottom. Offering full width trailer access, this dock shelter system means greater protection against dust, insects and other debris at the dock. HINGE GUARD is an available option on all FoamSide® Dock Shelters. Its durable design is made from impact resistant High Molecular Weight Polyethylene (HMPE) and it is available in two (2) profiles, a large profile for refrigerated trailers and a smaller profile for standard trailers doors. There is virtually no maintenance required and it can be easily replaced when desired.
Kelley FlexFrame® Dock Shelters service a wide variety of trailer sizes and types, providing full trailer access during the loading process while minimizing ownership costs. The secret is Kelley’s gravity-biased, flexible frame. It yields to misguided trailers, preventing costly building and shelter damage.

As the trailer approaches, if off-center trailer contact occurs, the FlexFrame moves upward and back to prevent costly damage to the wall and shelter. After the trailer leaves, a gravity-biased design returns the frame to its original position.

FlexFrame® dock shelter
Versatile, full-access loading with low ownership costs.

FSR Series Foamside® dock shelter
Flexibility of a seal, full trailer access of a shelter.

The Kelley Foamside® Dock Shelter combines the flexibility of a seal and the full trailer access of a shelter. The FSR Series effectively keeps the outside elements, such as the cold, rain, sleet and snow, out of the warehouse, providing energy savings and added comfort for your employees. The Foamside Dock Shelter’s unique Tufsteel® frame components are covered by a 5-year limited warranty against rotting, cracking or warping.

When the trailer is backed into position, no foam or fabric impedes the doorway, providing clear and unobstructed access to the trailer.

**FLAME RETARDANT FABRIC**

Many of our fabrics offer optional flame retardant designs. These fabrics are engineered or tested to the strict standards of the California State Title 19 and NFPA-701. These flame retardant fabrics are designed to self extinguish a flame in ten seconds or less once the source is removed.

Note: Not all fabrics are available in all colors. Please check with your local Kelley Distributor to verify color availability in your choice of fabric. Due to printing variances, actual fabric colors may differ.

**DONT JUST OBSERVE IT, LIVE THE EXPERIENCE.**

Kelley® is a world-renowned brand, best known as the pioneer of air-powered dock leveler technology, offering a comprehensive portfolio of loading dock and warehouse solutions. We are delighted to invite you to our 6,000 square foot showroom, known as the Entrematic Academy in Carrollton, Texas. The Entrematic Academy gives you a very special opportunity to get to know our products in person. Gain hands on experience and enjoy one-on-one interaction with our engineering and manufacturing team in this state-of-the-art facility.

**CAN'T MAKE THE TRIP TO DALLAS?**

Let our Mobile Academy come to you. Our 53’ completely enclosed and temperature-controlled trailer features over 25 full-sized, fully-functional dock equipment demo units. Call 1-877-778-DOCK (3625) to schedule an appointment and we’ll drive our solutions straight to your door.
